I. Special Topic: Queen's Wharf Project

On 20 July 2015, Destination Brisbane Consortium ("Consortium"), a joint venture between Far East Consortium International Limited ("FEC"), Echo Entertainment Group Limited ("Echo") and Chow Tai Fook Enterprises Limited ("CTF"), was selected by the Queensland State as the preferred proponent to undertake the Queen's Wharf Project ("Project").

The bid to the Queensland State for the Project comprises the Integrated Resort Component and the Residential Component encompassing a total area of approximately 9.4 hectares, consisting of three residential towers comprising approximately 2,000 apartments, 5 world class hotels (including Ritz-Carlton Hotel owned by Echo) with approximately 1,100 new premium hotel rooms, high end food and commercial outlets and a casino in Brisbane's prime waterfront district. The Group and CTF will each have 25% interest in the Integrated Resort Component (excluding Residential Component) and Echo will have the remaining 50% interest and will be appointed as the casino operator. The development of the Residential Component will be undertaken by the Group and CTF on 50:50 basis.

Echo will transfer the existing casino operation and business to the new development upon completion and will operate the Integrated Resort in return for a fee. The fee will be determined by the revenue and earnings generated by the Integrated Resort. The Group and CTF will generate referral fees for VIP business directly referred to the facility and share fully and equally in any profit derived from the Residential Component of the development.

Given the ideal location of the Project - the central business district of Brisbane, Australia -, the world class gaming facilities, and capitalizing on the successful track record and combined expertise of each of the Consortium parties, the Project enables the Consortium parties to be a part of one of the most important developments in Brisbane placing the city on the world stage as an international tourism destination.

Queen's Wharf Project (Con't)

International Tourism Expenditure in Australia

According to Australasian Gaming Council, gambling venues in Australia attract a great number of interstate and international tourists, with the inflow of visitors having a positive impact on the local economy. The current tourism trend suggests a surge in the Asian middle class, particularly the Chinese middle class, a group expected to grow to over one billion by 2030.

According to Australasian Gaming Council, the casino industry in Australia competes with a number of neighbouring countries for tourism – including Macau and Singapore. Australia aims to attract 860,000 Chinese visitors by 2020, a goal which if successful will create a tourism boom that will be worth up to \$9 billion a year.

II. Monthly Press Room: The Launch of “Aspen Crest”

On 6 August 2015, FEC announced its luxury boutique residence, located at Kowloon East catchment, will be officially named “Aspen Crest” after the release of Kowloon’s “Star Ruby” and “Sevilla Crest” and “Eivissa Crest” on Hong Kong Island. Aspen Crest will inherit the Group’s experience in developing quality boutique residential properties and will be the first to capture the extraordinary potential of Kowloon East SMART CITY development.

Aspen Crest is located at the new core prime area of Kowloon East, close proximity to Diamond Hill MTR station with the existing MTR Kwun Tong line and Shatin to Central Link expected open in 2019[^]. It enjoys extensive transportation network and connecting everywhere in Hong Kong through easy access of highways such as Lung Cheung Road, Kwun Tong Bypass and Tate’s Cairn Tunnel Highway. The government aims to transform Kowloon East into a new city Central of Kowloon. New residential properties, hotels, grade A commercial buildings, restaurants and entertainment facilities have gradually emerged along with several large green parks, leisure and cultural facilities, which are suitable for both active and relaxing lifestyles. Together with the existing community culture, they create a unique lifestyle by blending old and new cultures.
